

# BEAUTY

By Jeanette M. Zinno

*Summer's sun rays are beaming, and it's important to not only protect our skin now, but also to reverse the damage from previous exposure. From parched skin and pesky sunspots to extra baggage under our eyes, summer causes its share of beauty problems. Luckily, I've found some solutions in these products to help you to look revitalized and rejuvenated all throughout summer.*

## PERFECT SKIN IS IN

### 1. SAY GOODBYE TO SUNSPOTS

Too much exposure to the summer sun can cause unwanted sunspots. We can combat these little spots with **C-12 Concentrate** by **Dermalogica**; this silky-rich, treatment that brightens skin, minimizes discoloration and improves skin clarity. Byebye sunspots!  
Dermalogica, \$90.

### 2. PLUMP UP SKIN!

When we're in the sun our skin naturally dehydrates. Just as we drink water to hydrate our bodies we must make sure to moisturize your skin as well. **SK-II Essential Power Rich Cream** hydrates skin to improve your skin's firmness and reduce the appearance of aging.  
Nordstrom, \$250.

2.

### 3. A DROP IS ALL IT TAKES

Your eyes are the window to your youth. So give them the perfect pick-me-up with **La Prairie's Essence of Skin Caviar Eye Complex**. This cream acts as a "mini eyelift" in a bottle! It lifts, firms, and energizes the skin around your eyes, leaving them looking bigger and brighter than ever.  
Saks Fifth Avenue, \$135.

3.

### 4. THE TRUTH IS OUT

Like a daily vitamin to boost your health, the **Ole Henriksen Truth Serum Collagen Booster** energizes the look of your face by preventing further damage from the sun and smoothing out lines and wrinkles. This sweet, citrus smelling serum will keep skin nourished and protected. Best of all, your skin will have and maintain a beautiful glow!  
Sephora, \$72.

## THE Y EFFECT

Dr. Yan Trokel, board certified surgeon and creator of the Y Lift, has done it again. Dr. Trokel's new procedure zeroes in on the lower portion of the face to relieve the appearance of aging and time. Introducing chYnjection! This new procedure was derived from Dr. Trokel's innovative Y Lift, which Dr. Oz has hailed as the "miracle 30-minute facelift." Dr. Trokel's latest innovation, chYnjection is a unique new procedure that lifts the neck and produces sharper definition to the jaw line and chin area. Patients emerge with a beautiful, sexy, and youthful new look in minutes — all without any cutting, pain, or downtime!

Thanks to chYnjection, we don't need to resort to surgery to get stunning aesthetic results. The procedure takes about only twenty minutes to perform and lasts up to two years. Patients won't have to subject themselves to painful incisions, stitches or anesthesia. Dr. Trokel accomplishes these results using an innovative and highly specialized

instrument that is inserted just beneath the skin which both lifts and places the FDA-approved hyaluronic acid dermal filler that secures your new look in place. The rejuvenated jaw line and chin are then "molded" by hand to accent and highlight each individual's distinct physical characteristics.

Now, in less than thirty minutes you can have that sculpted jaw you've always desired. And the best part: No one will ever know your little secret!

The Y Lift Center: 39 East 67 St.; 212.861.7787

## EDITOR'S PICK: MASK AWAY

Perfect for all skin types, the **Tata Harper Resurfacing Mask** revives summer skin, giving you an instant glow! The mask is packed with such potent ingredients as pomegranate enzymes, pink clay, willow bark, and lemongrass. This 100 percent natural magical mix of ingredients helps to minimize pores, exfoliate, and detoxify skin, and it also makes skin appear fresh and healthy! Space NK, \$55.
